

Are you polite or political?
 Are you correct or cynical?
 Are you as open-minded behind closed doors?
 Would you join forces in this holy war?
 Are you as offended when nobody's watching?
 Are you an attacker or a victim?
 Do you carry the burden of this privilege?
 Do you see this guilt as leverage?

D'you lose your moral compass in a Starbucks queue

First time I heard this
 Everything changed
 I was waiting for the bus
 Field hockey practice, 13 years old
 A couple of men stared at me from across the street
 Eyes on my legs
 I didn't understand
 Did my skirt get caught in my underpants?
 So I scanned my uniform
 In the same order they did
 From my Nike football shoes
 My knee-high blue socks to my
 Pleated navy mini skirt
 But I just didn't see it
 Looking for a clue I awkwardly looked back at them
 They looked hungry and proud
 A combination I just didn't comprehend
 Until suddenly

It hit me
 Hit me
 Suddenly
 It hit me
 It hit me
 Yeah
 Suddenly
 It hit me

Hit me

How 'bout you, Bolis?

It started with a love letter
 I spent an hour in the shower
 Examining myself
 Looking for clues in the mirror
 I tried to see myself through her eyes
 So I combed my hair back
 Put some wax in it
 I opened my dad's cupboard
 Drawn to the scent of a bottle
 Acqua Di Gio, Acqua Di Gio
 It hit me

Hit me
 Suddenly
 It hit me
 It hit me
 Yup
 Suddenly
 It hit me

How to flirt with food in four steps
 Read my favourite teenager magazine
 I found my first guinea pig soon after
 The pig was called Stefaan
 Step one
 Grab food with tip of fingers
 Step two
 Pout your lips and open your mouth
 Step three
 Take a bite and lick your fingers
 Step four
 Look boy straight in the eyes
 That's where it went wrong
 I couldn't locate my mouth anymore
 The nacho fell straight into my empty bra
 Stefaan ended up with Nadia

It hit me
 It hit me
 It hit me
 It hit me
 It hit me
 It hit me

Être enfant pour toi
Ça veut dire quoi?
J'utilise les outils
Que tu m'as transmis

*What does being a child mean to you?
I use the tools you taught me*

Être femme pour toi
Ça veut dire quoi?
Suivre ma voie, V.O.I.E.

On va dire que tu es tombé amoureux d'une façon
inconditionnelle. Donc sortir? J'en avais même pas envie.
Parce que, ce qu'on vivait toutes les deux, on jouait, on chan-
tait, on faisait plein de trucs...
Tout ce que je pourrais faire pour éliminer, pas les obstacles.
Les obstacles de la vie, elle va... Elle pète sa gueule, elle m'ap-
pelle, on parle et puis c'est fini. On panse les blessures.
J'ai instauré cette communication depuis toute petite...
«Maman, j'ai fait une bêtise. Mais si je te dis et bien tu vas être
fâchée sur moi...»

Enmen kow kon ou enmen tout moun

J'sais pas si c'est l'éducation judéo-chrétienne...
Cet espèce de faux semblant de Jésus Christ qui est mort
sur la croix.
Donc tu es éduquée dans un esprit de sacrifice de soi-même.
Boris: «Peux-tu me raconter quelque chose de positif
de toi-même?»
«De positif de moi-même? Putain, mais j'ai des couilles hein.

It's so hard for me to say
 I want you to do this
 It's so hard for me to say
 I like this, go on
 I'd rather play a shallow game
 An actor in your phantasy
 A character that hides the shame
 The pain and guilt kept locked away

Reappropriate your sexuality
 Accept and celebrate your sensuality
 The broken child in you, you set her free
 Reclaim your womanhood by saying what you need
 Reappropriate your sexuality
 You've got the right to femininity
 It's yours to give, it's yours to keep
 Embrace your womanhood by saying what you need

Your sacred garden, secret place
 You go when you're ready
 Doors should open at your pace
 There should only be one key
 But I was forced to go and play
 Got forced, convinced it was ok
 I didn't even have a say
 I'm still washing their dirt away

Reappropriate your sexuality
 Accept and celebrate your sensuality
 The broken child in you, you set her free
 Reclaim your womanhood by saying what you need
 Reappropriate your sexuality
 You've got the right to femininity
 It's yours to give, it's yours to keep
 Embrace your womanhood by saying what you need

I was walking down the street
 When I woke up early this morning
 I said 'Hey Mister DJ'
 Ain't got no money
 I throw my hands up in the air
 And I wave'em like I just don't care
 I'm down on my knees begging you please
 You're not like all the other girls

You're cold as ice
 I wanna make you feel real nice
 I wanna make you feel real nice
 I bet this song sounds real familiar (familiar)

Things aren't always what they seem
 Whenever I look into your eyes
 My heart is beating like a drum
 L to the O to the V to the E
 You're my baby tonight
 I wanna hold you real tight
 Let's dance the night away
 We'll be cruising on the highway

You're cold as ice
 I wanna make you feel real nice
 I wanna make you feel real nice
 I bet this song sounds real familiar (familiar)
 You're cold as ice
 I wanna make you feel real nice
 I wanna make you feel real nice
 I bet this song sounds real familiar

I was standing in the rain
 I wanted to die in your arms again
 When I was flying mountain high
 Until you took me down the river
 So I went from hero to

How do people find the time to have coffee?
I have such a lack of self-discipline, what's wrong with me
And why am I awake before my alarm goes off every day
Is it because I'm a new artist that I should put up with that?

Should I wear my afro or a wig again today?
I wish I looked better without make-up though
A natural beauty
Embracing myself is the most attractive thing to be
Why can't you just let it go you know all this
What's wrong with me?

Now let go of this mental interpretation
You exist with or without it
Thank the fears and say goodbye
Let it go
Your body knows what to do
Now let go of this mental interpretation
You exist with or without it
Thank the fears and say goodbye
Let it go
Your body knows what to do

Damn I can't believe this is our last song already
Oh you want a picture, did you enjoy the show?
You want to book me for your jungle party, how nice
Why am I still living here, can't take it no more

Now let go of this mental interpretation
You exist with or without it
Thank the fears and say goodbye
Let it go
Your body knows what to do
Now let go of this mental interpretation
You exist with or without it
Thank the fears and say goodbye
Let it go
Your body knows what to do

You've freed yourself from all of that mental clutter
Cleaned the dirty dishes
Threw away the broken glass
What's left is a clean slate so what's next
Thank yourself, praise your body, celebrate and dance

Now let go of this mental interpretation
You exist with or without it
Thank the fears and say goodbye
Let it go
Your body knows what to do
Now let go of this mental interpretation
You exist with or without it
Thank the fears and say goodbye
Let it go
Your body knows what to do

11 MAKING SENSE STOP

Parfois j'me sens fâchée
Tu me laisses encore tomber
Parfois j'me sens fâchée
Tu me laisses encore tomber

Time to say goodbye
And let the words flow
Embrace the silence
It's all said and done
You need to welcome your intuition
Make room for your own subconscious mind
The liberty of saying nothing
But also really meaning it
Words are my refuge, silence is scary
But it is time to stop making sense

Welcome your words and your intuition
To own the silence and say goodbye
My room for refuge is really scary
But also meaning to embrace time
Is liberty the voice of nothing?
Done saying words make silence flow
Said the subconscious and let it need you
So it is time to stop making sense

Parfois j'me sens fâchée
Tu me laisses encore tomber
Parfois j'me sens fâchée
Tu me laisses encore tomber

Nothing is conscious, your need for refuge
Sublet your room to your scary voice
The words go by to done said the silence
Let time say embrace and the and all
The off but le-ii say all meaning
My is is king, burning so ning (ning bur so ning)
Time let the done to
Your in for voice it
Decision it is
Stop making sense

Parfois j'me sens fâchée
Tu me laisses encore tomber
Parfois j'me sens fâchée
Tu me laisses encore tomber

12 HAHA

Guess you had to be there

Oh, thank you

No thank you
No no no really thank you
Thank you so much for taking the time to tell me this
This is a real eye opener
Yeah, you're right, this doesn't look good on me
And maybe I should ditch the blonde wig
That's such a good idea
Tell me, what would you like to see me in then?

Couldn't have done this without you
And your opinion
Enlighten me, with your vision
I count my blessings

Yes I prefer my first EP too!
Uhuh, maybe I should make it less complex
Two projects, one artist, jeez, What the hell was
I even thinking?

My inspiration comes from you
Oh what an honour
I am not worthy of your kindness
Noble intentions

Thank you so much for this opportunity
Yes, this is really good exposure for us
And exposure shouldn't have a price, right?
'Cause money doesn't rhyme with creativity

Couldn't have done this without you
And your opinion
Enlighten me, with your vision
I count my blessings

I wouldn't have made it this far without you
Yeah, you see my true potential
And you discovered me, right?
You're the Columbus to my America

My inspiration comes from you
Oh what an honour
I am not worthy of your kindness
And noble intentions
Couldn't have done this without you
And your opinion
Enlighten me, with your vision
I count my blessings

Enough enough enough enough enough enough enough
about me
How about you?

Actually I should know better than this
And frankly, I don't wanna sound bitter
It goes against everything I stand for
But it's easy, instantly satisfying
I know I'm being kind of passive aggressive right now
'Cause you can't tell me anything when I'm on my throne
This is the Royal Revenge
Even if this is our swan song
and we'll be stepping down soon

No thank you
No no no really thank you
I am humbled by your presence
I feel honoured to be part of this
I really appreciate this
I feel so blessed
Amazing
Thank you
Thank you

Enough enough enough enough enough enough enough
about me
How about you?
