Stitches. :::::

① When you falling down
The waves comes and crash around
And you sink below all the sands
From the storm above things coming down.

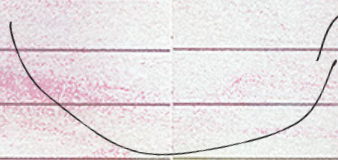

Oh After the flood
Oh Here comes the Sun

There's a time for love
And to feel things
There's a time for us
To heal this
And the time is now
Before the runs out

There's a time to run
And to fear things
There's a time for us
to deal with it
When the thing comes
you'll know what's right.

MO ⑧
Every piece of me
All the stitches in
my skin keep falling
out.

② When you freely down
And always come in crashing down
And you think so low
It's all around, from the
storm above things coming down.

Hungover For you.

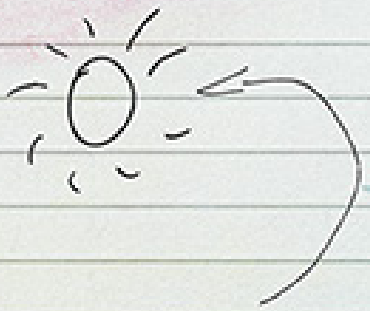

You said I stopped you flying
I clipped your wings
like I put you in a cell
But with four flours of things

Yeah I'd be lying
If I said I feel like the man
It's like the bottle I once loved
But now I can't have

You don't love me, you don't love me no more
I'm hungover for you.

A million dollars don't tempt me
Where you wanna be
But it's still looking like you
And us still looking like me
Took for granted
Has got up and took me
And I have what you love
What you love, that for me

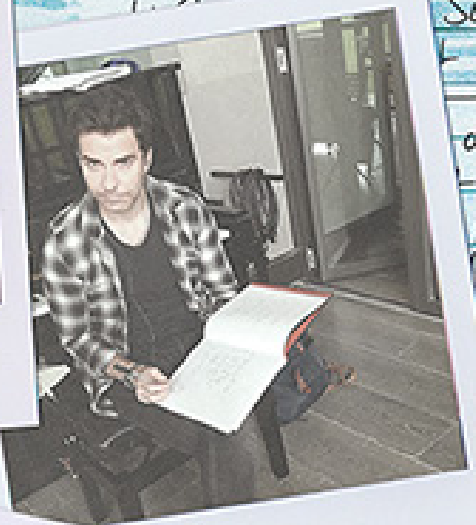

When did the note in our song
then off the scale
It's not what we hate in this thing
It's the things we should take
I know you don't know I get
I don't get what you do
But I know that the thing that I need ..
IS + WE LOVE FROM YOU .

Bust this Town

① IF you Got the Money
I GOT the Feeling That
You Got something to say to Me Honey
I'm loving the WEATHER
IT'S NOW OR IT'S NEVER
WE CAN Bust this town
Tonight And Forever
Tonight IS the night
We're leaving together

Come on!
So Low!

Long Line
TOMORROW'S TOO LATE
IT'S NOW OR IT'S NEVER

② IF you think it's Fun
You Spend AN ~~the~~ Money
I wish I'd never set eyes on you Honey
The coppers will get us
No time like the Present
Now Bust this town
Tonight ~~tonight~~ And Forever
Tonight is the night
We're leaving together -

So Bye Bye Bye!

This life Ain't Easy, (But it's the one that we all get)

① Old Friends, They grow old
Some don't make it at all
Those times were gold
At the time they were just small

B Moments we take in
F Hours that just pass
B Cities far away
F The memories still last

C Years we get busy
F Caught up in this life
C of who we became
F no time for thinking twice

IF only someone said
that the days would sometimes end
we'd grow into something new
and we'd miss it in the blend.

Ahh I got roses on my shades
C my eyes are just a glare
F Responsibility was never customary
innocent and free - dream out loud and be
makes me really see
That this life ain't easy
But it's the one that we all get.

② Stories on the street, Tell me TV shows to see
Music I should hear < Then you take me
For a beer

This life
conf...

Told me how you crashed your car
told me how you went to fear
no more drinking anymore
no more smoking no more coke

Now the sun beats through the shades
And my eyes are just a glare
And my house full of my girls
And my breaths dizzy in a whirl
So much responsibility, sometimes I cannot breathe
But it's the here and it's the now
I wouldn't change it for the world
But this life ain't easy
But it's the one that we all get.

③

All the choices that I made
and the fuck ups I had to face
and the minutes on my own
and the loneliness I owned.

+ Hours in my head
and the things I wish I'd said
that I love you more + more
but it came at wrong for sure

and this monkey on my back
been living there for years
I got to know him pretty well
he likes to give me all my fears

I'd like to make it on my own,
but the friendships staying within
and I hold that part so tight
cause it makes it all so clear...

Street of Orange Light

- ① I tried to do it all
I found I had to Fall
I tried the church on Sunday
Got up for work on Monday
I've climbed through it all

Spiky Great Expectations Subside Lay my Ambitions aside

All I can do is survive and write
All the mysteries in heart and in mind

Chaos I Skateboards and Snowballs

First-time I threw my fist
Palm walking with Bank names
Broken bottle scarred my wrist

First kiss in Plastic Cup

Now the dream is saved of
Memory of my Mother saying goodbye
As she walked right off
to work on the Factory floor

② I Failed to understand

I'm All But just a man
I'm skin and bone and muscle
I can crumple I can buckle
I can stand and I can fall

Chaos Back ② Deckchairs + Mix Tapes

Stand beneath my toes, Haircuts + Textures
I wish would wash ashore
RAIN WATCHING DOORSTEPS, in sleeping bags at night
change channels with a pool stick, on our street of orange light

AND IT FEELS SO RIGHT.

Don't let the Devil Take Another Day

- ① I looked high up at the aeroplane
And I thought of all the places
I could fly away
- ② I never noticed the lights had changed
And I crashed my car,
And I didn't get far
In the morning rain
And then I turned around
It thought I must have been dreaming
For some ^{reason} better days
^{knows}

Heaven Help Me Darling
Won't you help me heal my mind
Don't let the Devil take away another day
Stay Lord stay lets take a walk
Just stick around
I don't wanna let the Day get away

- ③ You set me free
Your my great escape
I dream of all the places
We could hide away
- ④ I never noticed the night from day
And we talked all night
Till the candle light
Burned at its flame

And then we walked around
My feet back on the ground

Restless Mind

A Shooting Star
Seems so far
You Dived from your jar
As I heal my scars

Take care of my child
Take care of my wife
But I'm not so kind
To my Restless mind.

I wouldn't treat a friend
Like I treat myself
No letters I'd send
Run a mile instead

All the lessons I've learned
All the money I earned
All the time I burned
I wasn't in the room
